

Working student Sustainability & Data Sourcing (m/w/d)

We are looking for an exceptional individual to join ExoMatter as a working student in Sustainability and Data Sourcing for **10-15 h per week**. In this role, you will support the founders and the implementation team to broaden the range of available data sources, especially when it comes to sustainability and ESG data of materials.

Become part of a young deep tech and software startup based in Munich and revolutionize materials development with us. ExoMatter is a spin-off of the German Aerospace Center (DLR) and part of the UnternehmerTUM. We have a first product on the market with paying customers like Audi and Airbus and a strong upward trajectory.

Why are we doing this?

Our mission is to challenge the status quo of materials to reduce the worldwide ecological footprint and increase the innovation speed.

We need you to succeed!

[Josua](#) and [Barbara](#), our co-founders, are on a mission revolutionize the materials development. ExoMatter needs superstars like you to help shape our exciting journey from scratch!

Do you think along these lines?

If you are equally convinced that only with more efficient materials, can we tackle the climate crisis

You are a maker and want to make things happen. See your impact directly!

You love working in a dynamic team: trusting, exchanging feedback, and taking responsibility is crucial

Your tasks

- You will be researching available materials data sources in the scientific literature and in web-based data repositories
- The focus will be on sustainability data (especially metrics beyond carbon footprints), and occasional integration of other materials data sources
- You will extract this data and reformat it for use in our software platform
- You will occasionally join customer meetings and present your work

Our requirements

- You hold a bachelor degree in natural sciences, engineering, or computer science
- You have a basic understanding of chemistry and materials
- You have first experience in programming and data transformation
- You have first working student experience, experience in a startup is a plus.
- Knowledge of sustainability metrics is a plus.
- A Maker with a strong sense of ownership and a nothing-is-impossible attitude.

- You are fluent in English and have basic German skills
- You live in Munich

What we offer

- Competitive package of salary and benefits
- Attractive company culture in an early-stage startup
- Flexible work hours with strong focus on work-life balance far beyond industry standard
- MacBook or ThinkPad for personal and private use
- Hybrid work with flexible arrangement between on-site work in our new Munich office (location tba) and remote work

Start date: 01.11.2023.

If you have any questions or would like to apply, please contact our Co-Founder Josua:
